

K-Love serves my my family by providing a particular brand of Christian music, news and information that is simply not available in the local media. My children love to sing the songs that are heard on this station, and name of the Lord our God is lifted high through the praises subg to Him.

It would be a GREAT loss to my community if K-Love were replaced by any other type of LPFM station, since K-Love is extremely unique in it's style of music and service. K-Love is more than a radio station - it's a ministry that serves our community with good non-denominational Christian programming that's not loaded with conservative Christian political rhetoric.

Taking away K-Love will leave my family, and the rest of my Christian community, without this unique source of awesome contemporary Christian music and news. Please don't take it away!
